Forecast for Monday 22 Aug 2022

Weather: Mostly dry during the early hours but the odd shower could not be entirely ruled out. Showery rain arriving from the west during Monday morning, becoming persistent with some heavier bursts possible for a time. Drier periods developing early in the afternoon and into the evening with bright spells likely, but also a chance of showers, possibly briefly heavy.

Chance of cloud-free hill tops above 600m: 30% becoming 60% from mid-afternoon.

Low cloud and visibility: Periods of cloud above 400-500m during the morning. Becoming blanket cloud above 300-500m by late morning. Widely poor visibility during morning in rain and drizzle with extensively very poor visibility in cloud. Becoming mostly good at low-levels during the afternoon, with the cloud becoming patchy above 500-600m by late afternoon.

Meteorologist's View

Waterproof clothing will be essential if you are heading up into the mountains on Monday, with prolonged periods of damp weather expected and some rain at times, particularly during the morning. Low cloud will also create very poor visibility and hill fog, so good navigational skills will be required if you intent on deviating away from the main routes.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sun 21 Aug 2022	0.2mm	0.6mm	5.6mm

Forecast for Tuesday 23 Aug 2022

Weather: Bright spells and a few showers during the morning. Possibly a longer period of rain developing during the afternoon, with a few heavy bursts in places.

Maximum wind: South-westerly 15 mph gusting 20-25 mph at times.

Chance of cloud-free hill tops above 600m: 30% becoming 70% by the afternoon.

Low cloud and visibility: Periods of cloud above 400-500m during the morning, this most persistent in the west, with the chance of occasional clearances up to summit level in eastern areas. Patches above 700-800m during the afternoon and evening. Generally very good visibility but widely very poor in cloud and occasionally moderate in any showers.

Temperature: **Valleys:** Plus 14 Celsius rising to plus 21 Celsius.
At 600m: Plus 15 Celsius.
Freezing level: Well above the summits.
